MISSION-READY HEALTHCARE LOGISTICS

PALS provides compliance-focused local and regional courier support for healthcare and government customers, with secure handling procedures, documented accountability, privacy safeguards, and a scalable operating model designed to grow with contract requirements.

CORE CAPABILITIES

- Local and regional healthcare courier and logistics services
- Scheduled, recurring, on-demand, and route-based delivery support
- Secure transport of healthcare materials, documents, supplies, and sealed packages
- Chain-of-custody accountability, package-integrity checks, and delivery documentation
- HIPAA-aware handling and privacy/PII protection procedures
- Incident reporting, interrupted-transport procedures, and controlled access practices

SECURE & SENSITIVE MATERIALS HANDLING

PALS personnel are prepared through company procedures addressing privacy/PII protection, secure transport, chain of custody, package integrity, incident response, and healthcare-courier compliance. Customer packages remain sealed; personnel use exterior inspection and documentation procedures.

REGIONAL & LOCAL COVERAGE

Service focus across South Carolina, Georgia, and North Carolina, supporting both local point-to-point delivery and regional transportation requirements.

SCALABLE WORKFORCE & MOBILIZATION

Flexible staffing and operational model designed to scale personnel, routes, vehicles, and resources to meet contract volume, service levels, geographic coverage, and mobilization requirements.

DIFFERENTIATORS

- SBA-certified Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Healthcare-focused courier model rather than general parcel delivery
- Compliance-first operating procedures for sensitive information and materials
- Scalable staffing approach for contract mobilization and growth
- Local and regional service strategy across a focused three-state footprint
- Owner-led quality oversight and documented operating procedures
